Binge-o-Philia

Social-Networking Platform for Movie Buffs

User-Manual

About

Binge-o-Philia is a social-networking platform for movie buffs.

A single place for:

- Connecting with people ("binge-philes")
- Managing leisure (show-watching) time
- Reducing the friction of finding a perfect time to watch a show together
- Keeping a record of shows you've watched
- Browsing all the information about new and happening going on in the fiction world

Not to mention, the proper reminders/notifications about upcoming watch or when a friend just posted a new Movie Review ... all sorted!

Sign-Up & Sign-In

Users need to Sign-In on their on-boarding on Binge-o-Philia and will receive an Email, containing the link for email-verification.

Once users have successfully verified their email, they can then sign-in directly through Sign-In screen.
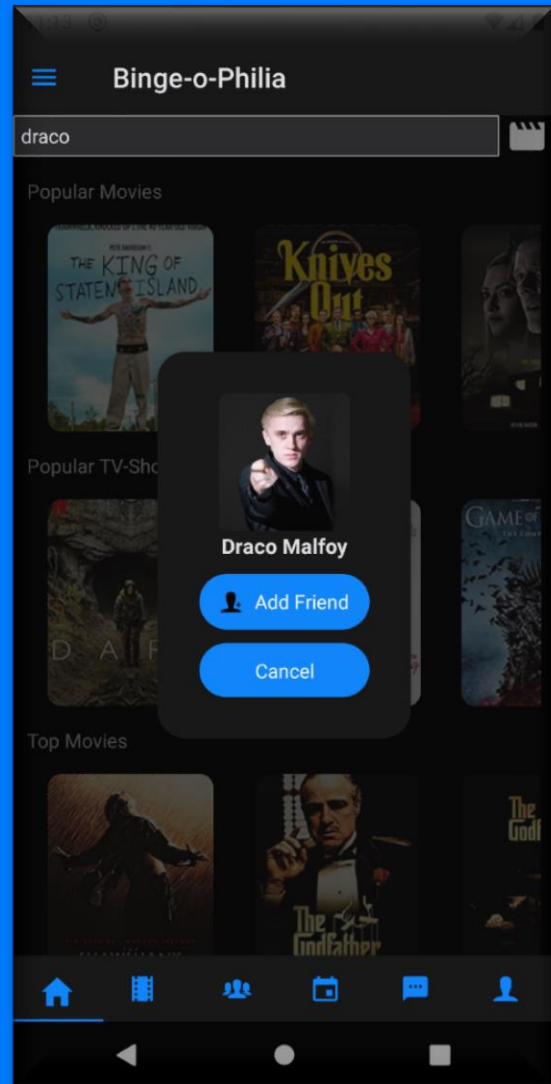

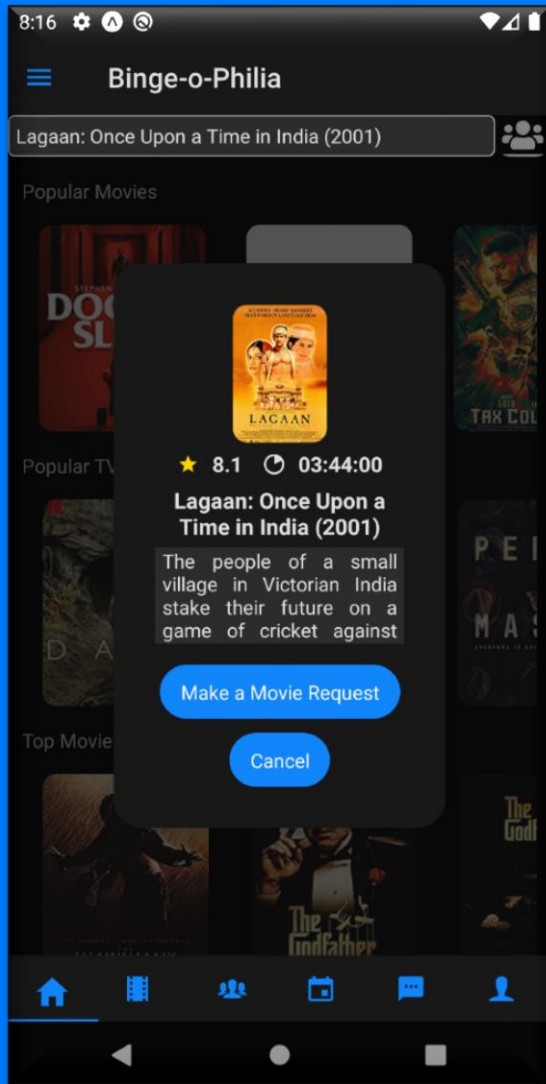

Binge-Home
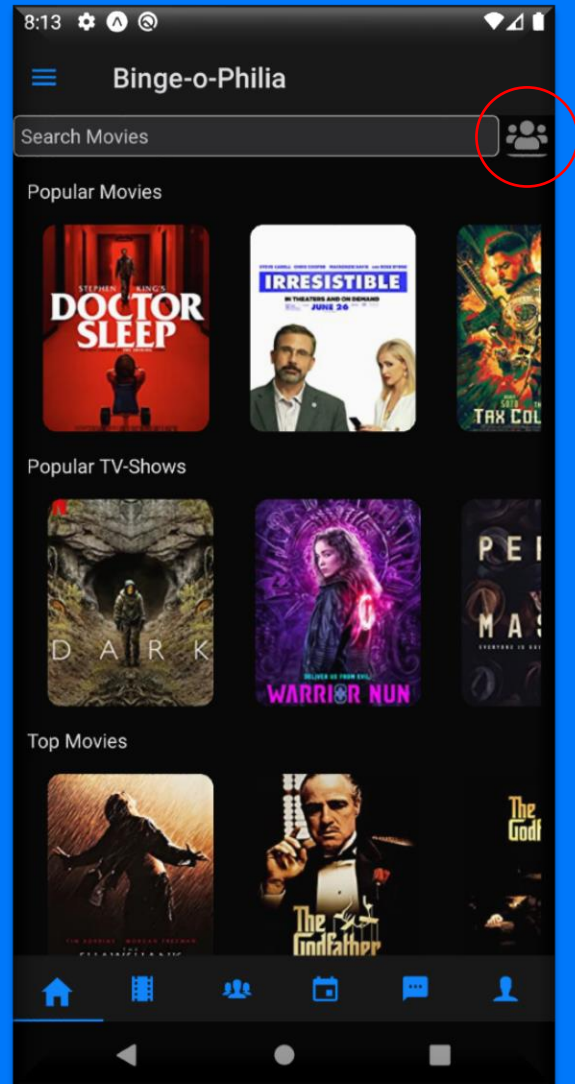

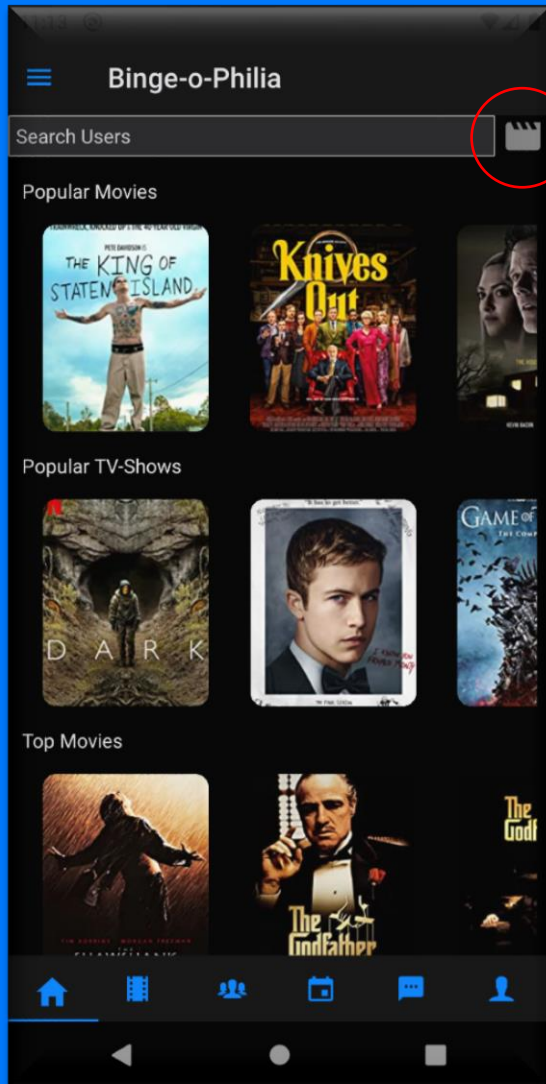

Home Screen shows different movies and tv-shows as recommendations, along with the ones which are trending and popular.

With auto-completion enabled Search Bar at the top, users can either look-up for movies or for other users and select their desired option quickly.
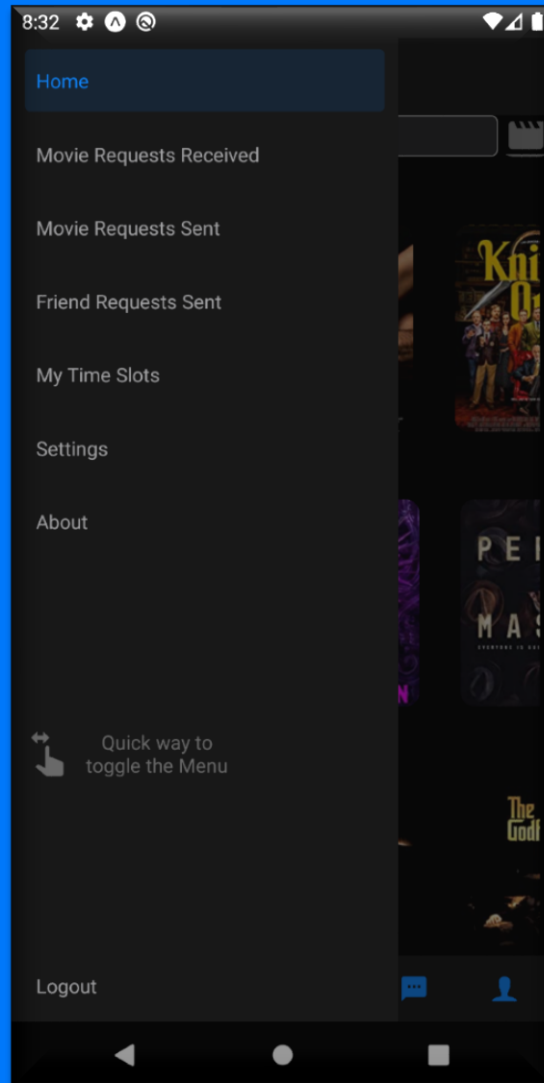

Binge-Home

Read the summary of a movie, view rating and make a Movie-Request to schedule a watch together.

Look-Up for a User, Add-Friend, Remove, View-Profile and accept or reject friend-requests.
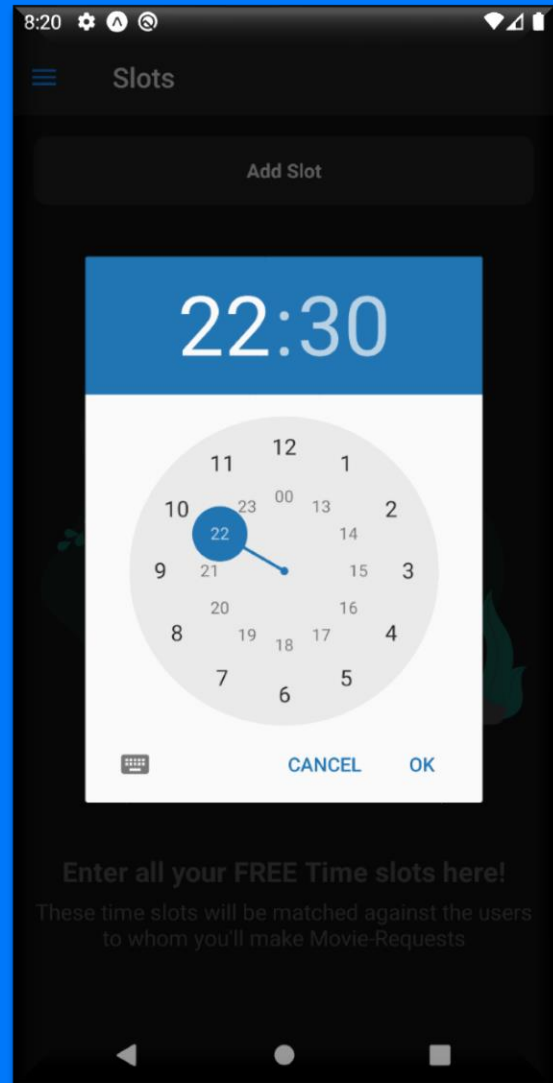

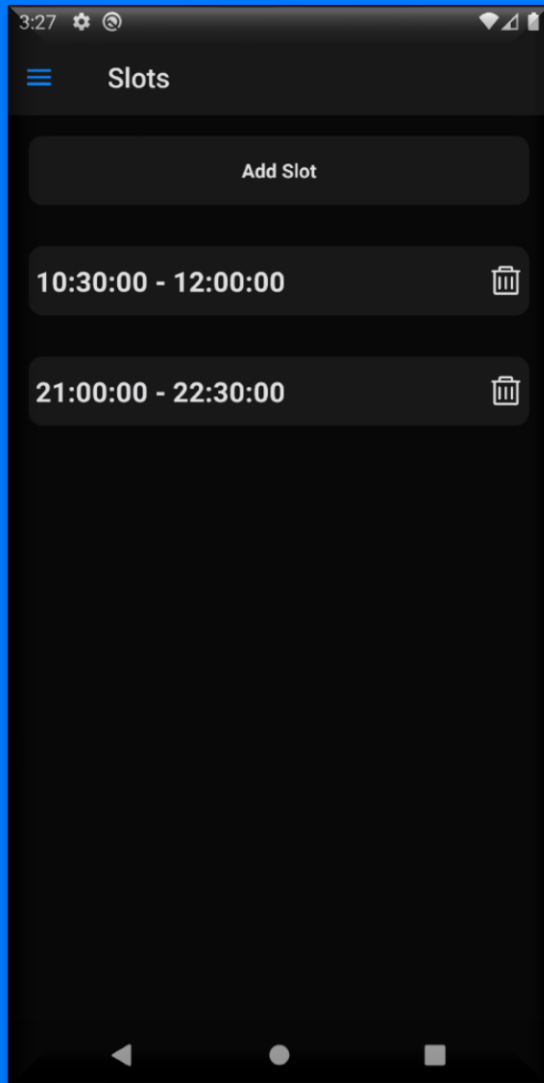

The Menu

Browse all the different parts of the app right from the side-drawer. Either toggle from the Menu (≡) button or just swipe from the left-edge of the screen.
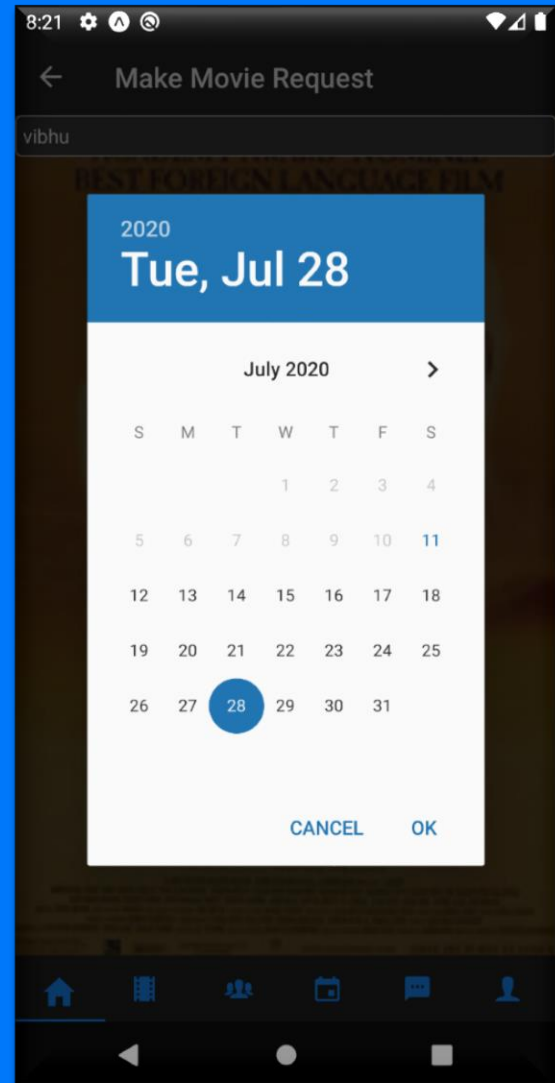

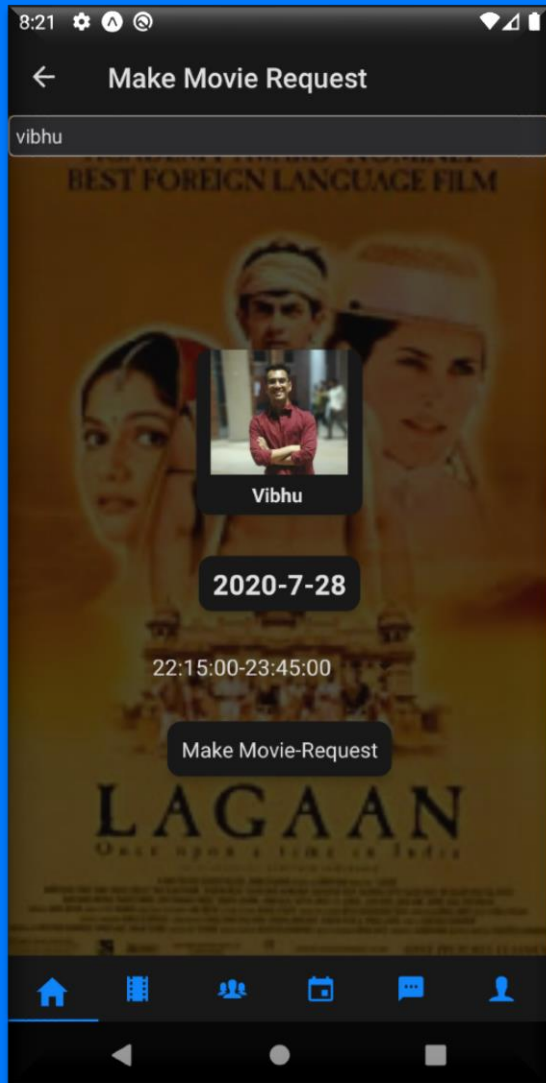

Time-Slots

Add time-slots whenever a user is free. These time-slots will be matched with the other users while making a movie request.
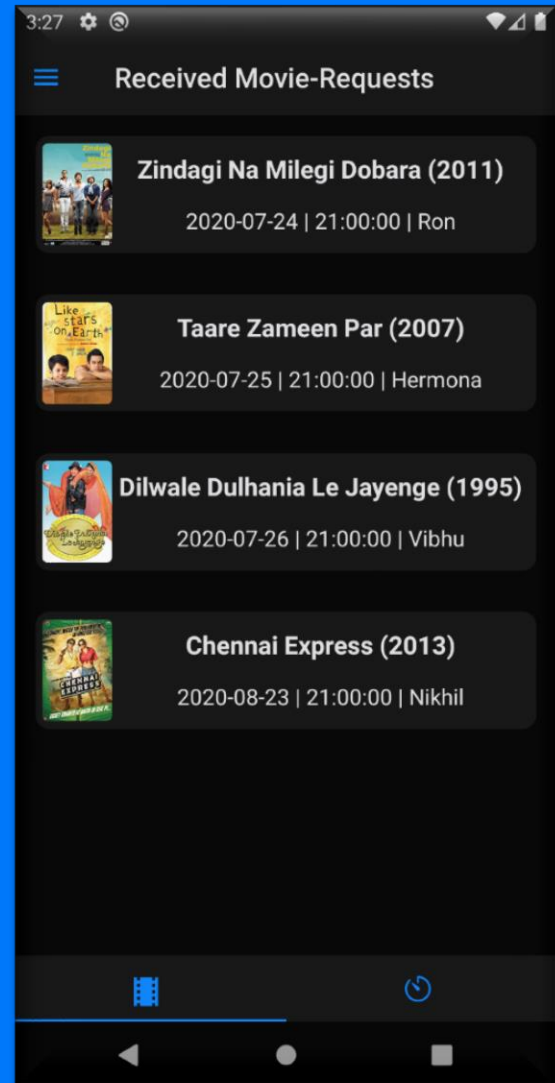

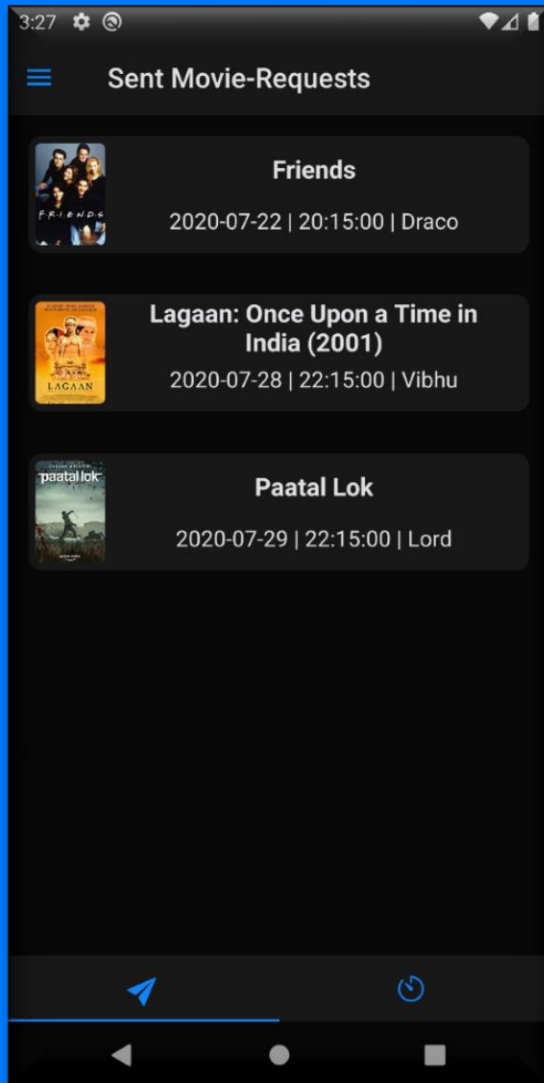

List them out or remove a few, all at one place.
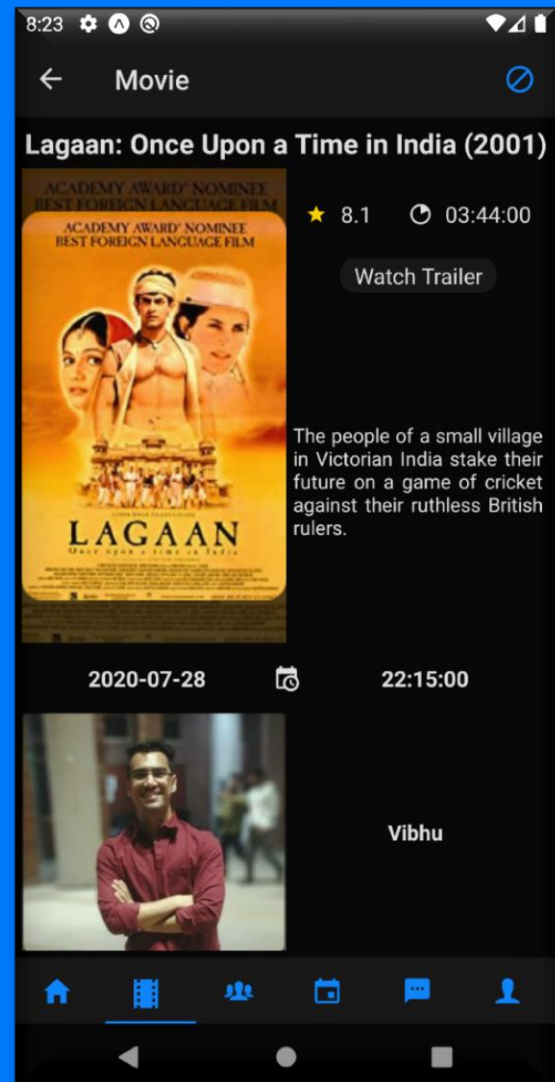

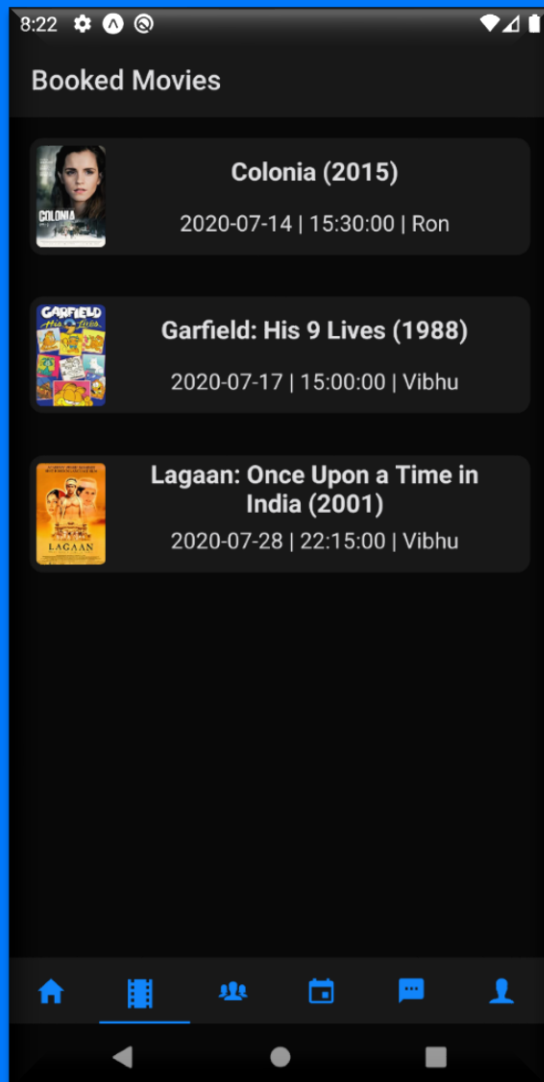

Movie-Requests

Choose a Movie, find a mate and select a date. Get perfectly matched time slots when both the users are free on that date.
